

DEVA

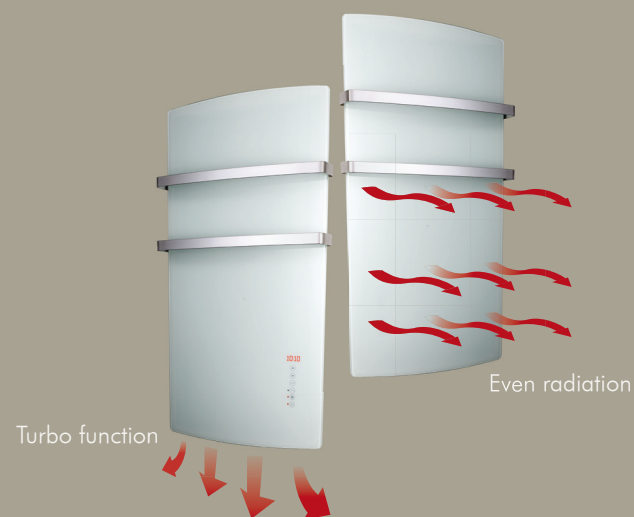

Radialight®

ELEGANCE AND PURITY

Essential lines, rounded edges, thin profile. The purity of glass,
a natural material that accumulates heat and releases it gently.

... While furnishing your bathroom elegantly.

WELLBEING

Research in Radialight's Laboratories has resulted in DEVA, a unique electric radiator / towel rail, with a combined action. The discreet, powerful turbo action heats the bathroom in just a few minutes, even if large in size.

The glass front, with the exclusive active inertia heating system, radiates blissful heat with low energy consumption, maintaining an embracing environment and towels that are always hot.
