

AER DOMUS

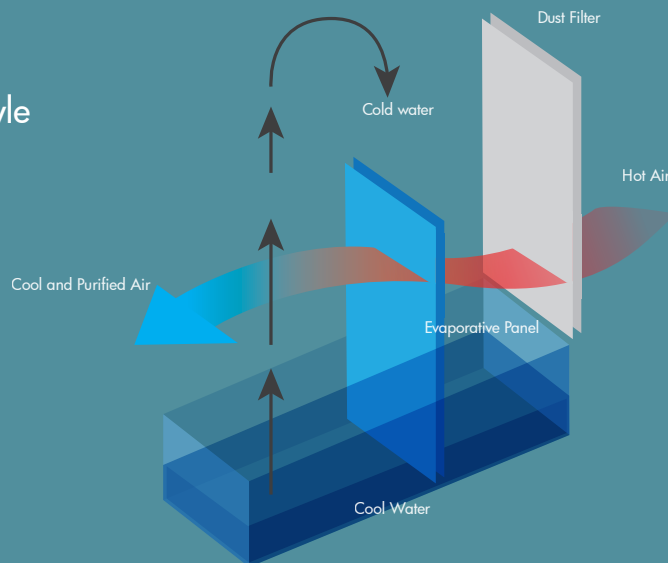

Portable air cooler for domestic use

From today the Radialight world is even bigger, with products that improve your all-round comfort throughout the year. Even when you have to deal with the heat of summer or the damp that penetrated the walls of your home, Radialight offers

you beautiful, functional, reliable solutions, using cutting-edge technology. No additional piping or outside unit, and very low energy consumption.

Cooling Style

AER DOMUS is the ideal cooler for hot summer days. Oscillating tower structure, for a single compact device with 3 functions: fan, cooler, ioniser. Its small size makes it perfect for positioning in the tightest corners of the home.

Control System

AER DOMUS can be operated using the control panel or the remote control included, which can be used to choose between 3 different cooling modes: continuous, natural or nighttime.

A removable 6 litre tank, with the 2 cooler panels included, increase cooling of the diffused air. In addition to the cooling function, AER DOMUS also has an ionised that purifies the air, along with the dust filter.
