

# AER PRO

Portable air cooler for commercial use and outdoor settings

AER PRO is the low energy consumption, high performance, portable air cooler for medium and large sized rooms and outdoor spaces.

## Cooling Style

Fan / air cooler combination with 3 power levels, filter, humidifier, 3 fan modes with provision for oscillation. This makes it possible to adapt the device precisely to suit the weather, size of the room, and the seating position of guests. A pleasant cool sensation, even during the hottest summer days.

## Features

- Touch screen controls + LED display
- Remote control included
- 4 ventilation speeds: silent, medium, strong, turbo.
- One of the most powerful in its category: 1000 m<sup>3</sup>/h air flow rate ; 12 m/sec ventilation
- Various options for personalised ventilation to suit your needs: continuous - natural - nighttime
- Timer use option: from 0,5 hours up to 7,5 hours.
- Air outlet grille with automatic right and left oscillation.
- Air purification system: removable, washable dust filter
- Super capacious 30 litre water tank, with automatic feed option.
- Alarm function that stops the unit working if the water in the tank runs out
- Fitted with castors for easy movement.

## Control System

AER PRO can be operated using the control panel or the remote control that is included.

4 power levels: low, medium, high, and turbo and 3 operating modes: continuous, natural, and nighttime which slows the speed until it switches off.

Air cooling with prolonged effect, thanks to the capacious 30 litre built-in tank.
