

QUADRO VISIO

Wall mounted bathroom fan heater with front mirror. Ultra slim design, silent, smart

Small, silent and smart with an Ultra slim design of only 11 cm thin. QUADRO VISIO will give your bathroom a sophisticated high tech mood , being a complete heating system, a towel warmer and a mirror in the same time.

Touch screen controls offer smart energy saving functions including extremely precise control of your comfort, automatic adjustment of the electric consumption and weekly programming and will adapt to your pace of life.

Heating style

QUADRO VISIO is a new generation intelligent heater.

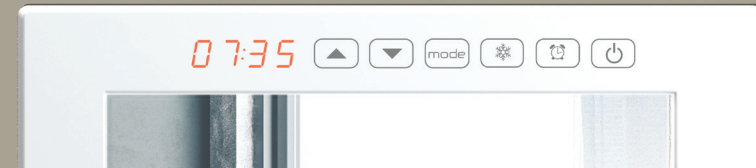

Its very silent fan system brings the bathroom temperature at the required comfort you need, in just a few minutes, while reducing the energy consumption in hold function, when the set temperature is reached.

You can use QUADRO VISIO in many different modes, according to your life style: you will always find your bathroom warm and cozy after waking up in the morning, just like you need it.

With its integrated Open Window sensor, QUADRO VISIO will avoid any heat loss and consequently any waste of heat in case of emergency.

You will always have warm towels and a beautiful mirror to decorate your bathroom.
